

Dear Users,

Here I'm going to write you step by step Shop Path & Facebook IFrame Settings

1- First I create a shop folder under our server and name it as "FacebookShop" like:

<http://www.nhstudio.de/FacebookShop/>

2- Now I Open ShopPath.txt from Project folder with text editor change & save it as:

<http://www.nhstudio.de/FacebookShop/>

3- Here I Upload all shop files(except FLAs) under shop folder

4- Now I Install all necessary Fonts under my system (I will find Fonts download link in Help File)

5- Now I have to open FacebookShop_AS3_CS4_online.fla locally, go to Layer "action shop path"

>Lines 10 and 19:

Change the:

```
DynamicPathLoader.load(new URLRequest("http://yourdomain.com/ShopFolder/ShopPath.txt"));
```

To:

```
DynamicPathLoader.load(new URLRequest("http://www.nhstudio.de/FacebookShop/ShopPath.txt"));
```

Change the:

```
DynamicPathLoader.load(new URLRequest("http://yourdomain.com/ShopFolder/TemplateColour.txt"));
```

To:

```
DynamicPathLoader.load(new URLRequest("http://www.nhstudio.de/FacebookShop/TemplateColour.txt"));
```

6- Save the Flash source and Run it locally

7- Upload created FacebookShop_AS3.swf under your server and replace it with old one

Now shop is ready to use under your Facebook Page.

You should consider one important point during XML or Photo customizing, after each changes in XML or Photos if you run FacebookShop_AS3_CS4_online.fla local, you are not able to see that changes, because the shop uses online files, so you need to upload the modified files under your server to see that changes.

8- Now I Log into my Facebook page, Install an IFrame Apps and set source Code as:

```
<html>
<head></head>
<body>
<object classid="clsid:D27CDB6E-AE6D-11cf-96B8-444553540000"
codebase="http://download.macromedia.com/pub/shockwave/cabs/flash/swflash.cab#version=6,0,29,0"
width="520" height="690">
<param name="movie" value="http://www.nhstudio.de/FacebookShop/FacebookShop_AS3.swf">
<param name="quality" value="high"> <param name="bgcolor" value="#000000" />
<embed src="http://www.nhstudio.de/FacebookShop/FacebookShop_AS3.swf" bgcolor="#000000"
quality="high" pluginspage="http://www.macromedia.com/go/getflashplayer" type="application/x-shockwave-
flash"

width="520" height="690"></embed>
</object>
</body>
</html>
```

9- Here you can see the result:

http://www.facebook.com/pages/NHstudio-FlashStock/129440057121539?sk=app_190322544333196

After this if you still have question or needs Help, please contact me at support@nhstudio.de

Best Regards
nhstudio
