- 5 PayPal Secure Digital Delivery via an email after each confirmed Order
- 6 Dynamic Code for Shop Highlight Colour just by one click: 0x0099CC
- 7 Fully XML driven Shop Labels,
- 8 Fully XML driven Product Properties like Names, descriptions, Photos and Prices

How customize this Shop?

Shop Path:

Just open and edit ShopPath.txt, it would be the Path you will upload the shop under your server.

Like: <http://www.yourdomain.com/ShopFolderName/#>

A Sample under our Server: <http://www.nhstudio.de/download/AS3/estore/#>

Shop High Light Colour:

Just open and edit TemplateColour.txt, it will change the Shop High Lights Colour Overall!

Shop Logo:

A dynamic Transparent PNG file, It will found under: images/logo.png

PSD source included in Project PSD folder, you can customize and easily replace it with yours.

Share Module Setting:

You need only open share.php, enter your Shop Admin Email and customize the email contents if you like.

Shop PayPal and Currency Settings:

You need only open xml/PayPal.xml and edit:

```
<Payments>
```

```
<Item email="YOUR PAYPAL EMAIL" currency="USD" sign="$"/>
```

```
</Payments>
```

Shop PayPal IPN URL Settings:

This should be set inside your PayPal account as IPN URL like:

<http://www.yourdomain.com/e-store Folder/paypal.php>

Customizing Shop Labels:

You need only open xml/Labels.xml and edit used Labels if needed:

```
<Labels>
  <Item label="SHARE"/>
  <Item label="PURCHASE"/>
  <Item label="LOADING CATEGORY PRODUCTS"/>
  <Item label="Enter an Email Address"/>
  <Item label="Invalid Email Address!"/>
  <Item label="Shared Successfully!"/>
</Labels>
```

Main Category Setting:

It comes from xml/ main_menu.xml

```
<MainMenu>
  <Items>

    <Item id="book" name="E-BOOKS" src="books.xml"/>
    <Item id="software" name="SOFTWARES" src="softwares.xml"/>
    <Item id="music" name="MUSICS" src="musics.xml"/>
    <Item id="video" name="VIDEOS" src="videos.xml"/>
    <Item id="game" name="GAMES" src="games.xml"/>
    <Item id="wallpaper" name="WALLPAPERS" src="wallpapers.xml"/>
    <Item id="font" name="FONTS" src="fonts.xml"/>

  </Items>
</MainMenu>
```

Note1: During customizing, no need to change the **ids**, if you have a new Product like Textures try as follows:

Change

```
<Item id="software" name="SOFTWARES" src="softwares.xml"/>
```

To:

```
<Item id="software" name="TEXTURES" src="textures.xml"/>
```

Note2: In case of editing ids, they also should rename in Flash source:

FLA>Library>ProductsMenuMC>Click F9 to open action script Panel>From Line 247

Note3: There are 3 Type of Detail Boxes that we used for this shop:

- **Global Preview** that we used for all Products except Music and videos
- **Music Preview** needs id="music"
- **Video Preview** needs id="video"

Products Setting:

In XML files:

Sample from book.xml

```
<Item
  name="BOOK-1"
  id="2011001"
  thumb="images/books/thumb/001.jpg"
  zoom="images/books/zoom/001.jpg"
  price="15.00">
  <details>
    <![CDATA[Product Description ]]>
  </details>
</Item>
```

Sample from musics.xml

```
<Item
  name="MUSIC-1"
  id="2011201"
  thumb="images/musics/thumb/001.jpg"
  zoom="images/musics/zoom/001.jpg"
  src="musics/001.mp3"
  price="14.00">
  <details>
    <![CDATA[Product Description ]]>
  </details>
</Item>
```

Sample from videos.xml

```
<Item
  name="VIDEO-1"
  id="2011301"
  thumb="images/videos/thumb/001.jpg"
  src="movies/NHIX.flv"
  price="40.00">
  <details>
    <![CDATA[Product Description ]]>
  </details>
</Item>
```

Note: Item ids are important and should be **unique**, they will use for PayPal IPN process

In PHP file:

All Products from XML files should be add in settings.php product array, line 44

As you see, we've categorized the sample Products for your more convenience during customizing.

Important Note1: All Product Names, Prices and download files should be 1:1 as they are in XML files and download folder, any difference can cause error on file delivery.

Customizing settings.php:

Here, you should also edit **your Shop Path** in Line5, **Admin Emails** in Lines 13, 14, **Email Messages** in Lines 16, 32, 41 and also **your paypal account currency** in Line 18.

Preparing Download Files:

All Products should be prepared in ZIP format and put in downloads folder, the names should be 1:1 as they set in settings.php Products array. Any mismatching can cause error in File delivery.

Can I Check my Shop Product Settings?

Yes, after finishing your customizing, run the check.php under a local server or online, this will check and show you all errors in details if there are.

Customize Flash Menu for Shop Products with Deep Linking:

You be able to set till 8 Items in your Custom Flash Menu, a Menu when user Right Click on Flash. We did a sample in xml/FlashMenuSetting.xml

```
<FlashMenu>
<Items>
<Item label="Our E-Books" link="E-BOOKS"/>
<Item label="New Software - Natural Texturing Tool" link="SOFTWARES#SOFTWARE-3"/>
<Item label="New Video - T3 Time by nhstudio" link="VIDEOS#VIDEO-2"/>
<Item label="New Music - Make It Last by timmcmorris" link="MUSICS#MUSIC-4"/>
<Item label="Font of the Week" link="FONTS#FONT-3"/>
<Item label="This Week Best Wallpaper" link="WALLPAPERS#WALLPAPER-4"/>
<Item label="Best Seller Game" link="GAMES#GAME-2"/>
<Item label=" " link=" "/>
</Items>
</FlashMenu>
```

This only works for Shop Internal Links.

Note: In case of removing each Menu Item, just set lable="" and link=""

Customize Shop Home Banners & Links:

Banner Images are dynamic and can be found under:

images/Advertisement/001.jpg & images/Advertisement/002.jpg

Source files also included in PSD folder for your editing if needs.

Banner Links can be edit in xml/ LinkSetting.xml as:

```
<!-- Advertisement Links -->
<Item label="AdvertisementOne" link="/E-BOOKS#BOOK-4"/>
<Item label="AdvertisementTwo" link="/SOFTWARES#SOFTWARE-3"/>
```

Customize Shop Panel Social Links:

For this you need open and edit xml/ LinkSetting.xml as:

```
<!-- Panel Icon Links -->
<Item label="Facebook" link="http://www.facebook.com/pages/NHstudio/129440057121539?v=wall"/>
<Item label="Twitte" link="http://twitter.com/NHSTUDIO"/>
<Item label="RSS" link="http://activeden.net/feeds/users/nhstudio.atom"/>
```

Note: If you don't like/need RSS for example, just leave the link="", the Icon become Inactive in Shop.

After reading this, if you still have problem with file customizing, then contact us under:
support@nhstudio.de

Thanks for Downloading this File, Good Luck using it in your projects!
