

Thanks for Downloading Our FLASH XML MultiPage Print

General Information

This Flash File Created with Flash8 – Published under Flash8- AS2.
Size: 590x300 – 42KB

Note: Before opening the fla source, you should install all necessary Font:

- Marke Eigenbau | Type: FreeFont <http://flashjournalism.com/tips/pixelfonts.htm>

Flash XML MultiPage Print let you print long texts inside Flash, you should only break your long text and put them in several text blocks inside a XML file [content.xml], this also support CDATA format, so you be able to use all HTML tags in your print text, like:

- Add Link
- Add Images
- Change Text Colour
- Change Text Size
- ...

after you update the xml file with your long text blocks, flash will show you how many pages you need for printing this with page preview button.

How can I customize the Print Page Header, Footer, Title, Logo and etc...

Print Page Template itself will find in Flash Library>PrintPageTemplate

Customizing Header Background

Flash Library>PrintPageTemplate>HeaderBackground Layer: This is a Flash vector shape

Customizing Footer Background

Flash Library>PrintPageTemplate>FooterBackground Layer : This is a Flash vector shape

Customizing Header Logo

Logo is a dynamic image and can be easily replace in images folder, for best result, it should be prepare in same size and has the same backgroundcolor like your header background.

Customizing Header Title

This is a dynamic text and can be update inside [pageSetting.xml](#) as: PageTitle="FLASH XML MULTIPAGE PRINT"

Customizing Footer Text in Right Side

This is a dynamic text and can be update inside [pageSetting.xml](#) as: FooterProjectName="POWER PRINT V1.0"

Customizing Print Page Numbers for a new Language

Flash Library>PrintMC>action Layer>Line 22- 71, there you can replace Page numbers Text as you wish for a new language.

Customizing Print Date Text in Footer for a new Language

Flash Library>PrintPageTemplate>action Layer>Line 34- 94, there you can replace Print Date Texts as you wish for a new language.

Note: If you don't need each of above texts for your Print Page Template, just leave it with an empty value.
